Leading the Transport People Want

# **The Korea Transport Institute**

## **Contents**

- Function and Role
- Vision and Mission
- History
- Organization
- State of Institute
- Research Areas
- International Cooperation & Knowledge Sharing
- Quantum Leap in Sejong Era

### **01** Function and Role

A
Comprehensive
Research
Institute on
Transport and
Logistics

- Developing national policies and social agendas in the transport sector
- Providing policy-making assistance to the government

National Think-Tank

- Developing future transport technologies to explore new growth engines for the national economy
- Devising a new strategy to support national transport policies

Hub for Global Transport Cooperation

- Pursuing the Knowledge Sharing Program (KSP) in the transport sector
- Developing global agendas and promoting cooperation with international organizations

### **02** Vision and Mission

Vision

A core research institute that plays a crucial role in establishing national transport and logistics policies based on knowledge management and a research system oriented toward fusion and synergy

#### Policy Leader

Reading National Transport Policies

Goals

Leading efforts to formulate transport and logistics policies that can help promote advanced lifestyles and enhance future national values

#### Knowledge Leader

Knowledge Management System

Building a knowledge management system that can maximize knowledge creation capabilities and the knowledge sharing environment

#### Convergence Leader

Fusion-oriented and Creative Research Environment

Realizing a fusion-oriented synergistic research environment based on collaboration and creativity

### 1986 – 2000 Make History of Korean Transport System

Master Plan for Seoul-Busan High Speed Railway

Master Plan for Urban Transport System Improvements

Master Plan for Construction of National Railway Network

Master Plan for Logistics Policy

**Building the National Transport DB** 

Established Plan for Key National Traffic Network

Urban Traffic Improvement Promotion Law Revision

Nov.	<b>1985</b>	Transport Development Research Institute officially chartered	
------	-------------	---	--

**Feb. 1986** KOTI launched as an incorporated foundation

**Aug. 1987** Inaugurated as a government-funded institution

**Feb. 1992** KOTI moved to a new location (Gangnam District, Seoul)

**Jun. 1996** Tourism Research Center moved to the Ministry of Culture and Sports

**Sept. 1998** Korea Transport Database Center established

Jan. 1999 Joined the Korean Council of Economics & Social Research Institutes

Mar. 1999 Moved to the Construction & Transport Research Complex

(Goyang City, Gyeonggi Province)

### 2001 – 2010 Consider Convenience Transport System for People

Reform the Public Transport System
Master Plan for Urban
Improvement of Pedestrian Culture
Enactment of Movability
Improvement for Traffic-Vulnerables Law
Expanded an Intelligent Transport Systems
Enforce an Expressway Transfer System
Research on Transport Environment
and Sustainable Transport
Enforce a Bike Rapid Transit System

Jan.	2005	Center for Road Freight Transport Market established		
July.	2005	<b>05</b> Joined the Korean Council of Economics, Humanities, Social Research Institutes		
Aug.	2006	2006 Celebrated 20 <sup>th</sup> anniversary		
Jan.	2006	Opening of the Center for Logistics Policy and Certification		
Sept.	2006	North Korea Transportation Information Center established		
Apr.	2009	Selected as the Most Outstanding Research Institute (by Prime Minister's office)		
Dec.	2009 Inauguration of the Global Research Office for Green Growth and Convergence			
Jan.	2010	MOU signed with World Bank		
Mar.	2010	MOU signed with Asian Development Bank		
Apr.	2010	Selected as the Most Outstanding Research Institute (by Prime Minister's office)		

### 2011 – 2015 Advanced to the World

**Beyond the Northeast Asia** 

Cooperative Study and Manpower Exchange with International Organizations

Educational Training for Public Officials of Transport (Korea-ASEAN)

**Educational Training for World Bank LUTP** 

**Educational Training for Citynet Public Officials of Transport** 

**KSP Report Publications** 

130 MOUs Signed with Overseas Institutions

Establishing and Implementing Transport Business Plans Overseas (Philippines, Cambodia, Laos, Indonesia Mongolia, Mozambique, Peru, Cameroon, etc.)

Apr. 2011	Selected as the Most Outstanding Research Institute for third year in a row
	(by Prime Minister's office)

lun	2011	2011	KOTI World Forur	n
Juli.	<b>ZULL</b>	////		П

lan	2012	KOTI-WPI	KOTI-World	Bank Joint Seminar
Jaii.	2012	NOTI-VVET.	, NOTI-VVOITA	Darik Julii Jerriiriai

Feb. 2013 KOTI- ITF/OECD Joint Seminar

May 2014 Selected as the Most Outstanding Research Institute (by Prime Minister's office)

**Oct. 2014** Dr. Chang Woon LEE inaugurated as 13<sup>th</sup> President of KOTI

**Dec. 2014** Relocated to the Sejong National Research Complex in Sejong City

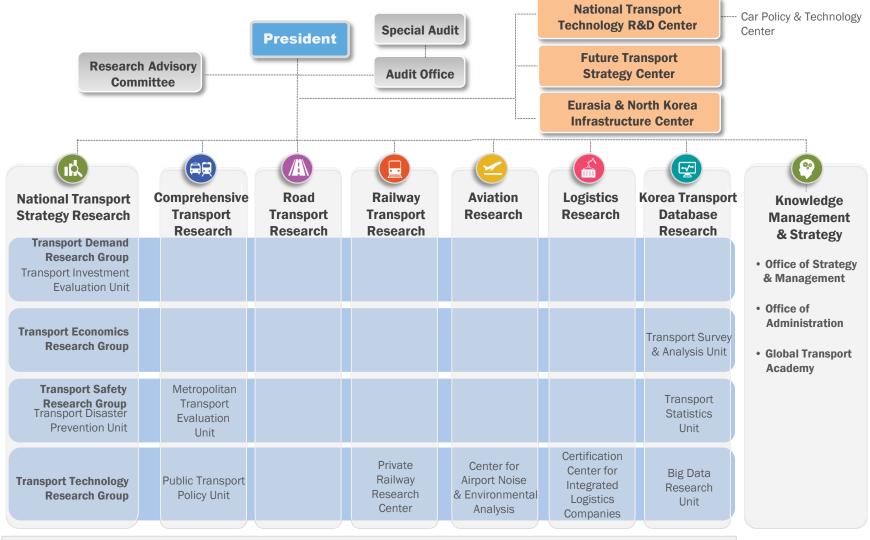

### 04 Organization

# Research projects concentrate around each division's CRO

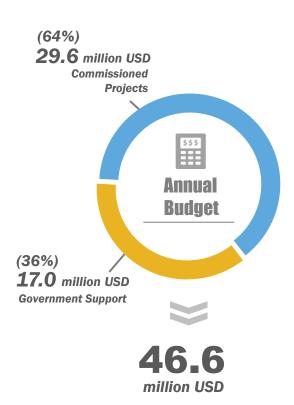

- CRO: Chief Research Officer
- Support for personal growth enhances professionalism
- Certification for specialized professional research

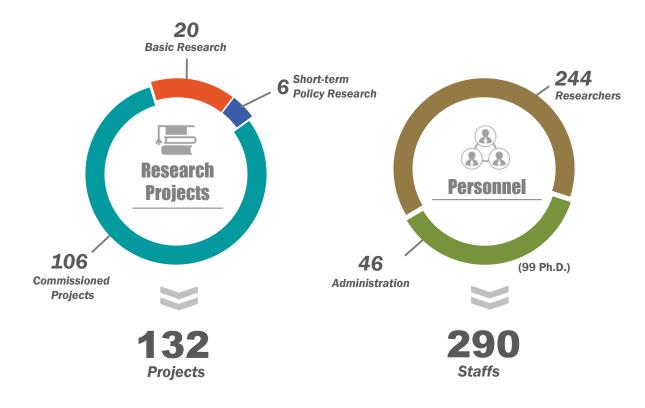

# 02 Division vs Group Cooperation Matrix

- Cross arrangement of manpower, cooperation research conduct
- Building a system for knowledge management and global transport knowledge sharing

### **05 State of Institute**

Note: As of 2015

### 06 Research Areas

#### NATIONAL TRANSPORT STRATEGY RESEARCH

**Designing the Future of National Transportation** 

 $\bullet \bullet \bullet \bullet$ 

Implementing transport related national agenda

• • • •

Finding and leading the national agenda

• • • •

Studies related to national traffic issues

• • • •

Issue papers to support government strategies

#### COMPREHENSIVE TRANSPORT RESEARCH

Building a Human-Centered Transport Environment and Transport-related Welfare System without Discrimination

• • • •

Urban and metropolitan transport

• • •

Public transportation

• • • •

Automobile policy

 $\bullet \bullet \bullet \bullet$ 

Transport welfare and transport-related administrative laws

#### **ROAD TRANSPORT RESEARCH**

Safe and Efficient Roadways Provide Communication throughout the World

• • • •

Planning, operation and safety related to road transport

• • • •

Efficiency of road transport systems

• • • •

Devising bike transport-related plans

• • • •

Studies on pedestrian transport and building a pedestrianfriendly traffic environment in central urban areas

#### **RAILWAY TRANSPORT RESEARCH**

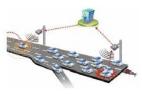

Creating Customized Rail Network Plans for Global Markets

Railway industry and relevant policies

Rail operating technologies

KTX economic zone study

### 06 Research Areas

#### **AVIATION RESEARCH**

Rising to Become a Global Aviation Power

• • •

Aviation-related industrial policies

• • •

Global aviation infrastructure

• • •

Air and space transport technology

#### **LOGISTICS RESEARCH**

**Building a Seamless and Innovative Logistics Network** 

• • •

Logistics policy and corporate certification

• • •

Logistics market research

• • •

Logistics technology

#### **KOREA TRANSPORT DATABASE RESEARCH**

Using Data to Offer Directions for Future Transport

• • •

Building and managing a national transport DB system

National traffic surveys and demand analysis

• • • •

National transport DB and statistical analysis

#### **Knowledge Management & Strategy**

**Enhancing Organizational Capabilities through Knowledge Sharing and Communication** 

• • •

Gather and provide information and knowledge concerning government policy

• • •

Increasing and expanding distribution of knowledge

Operation of the Global Transport Academy

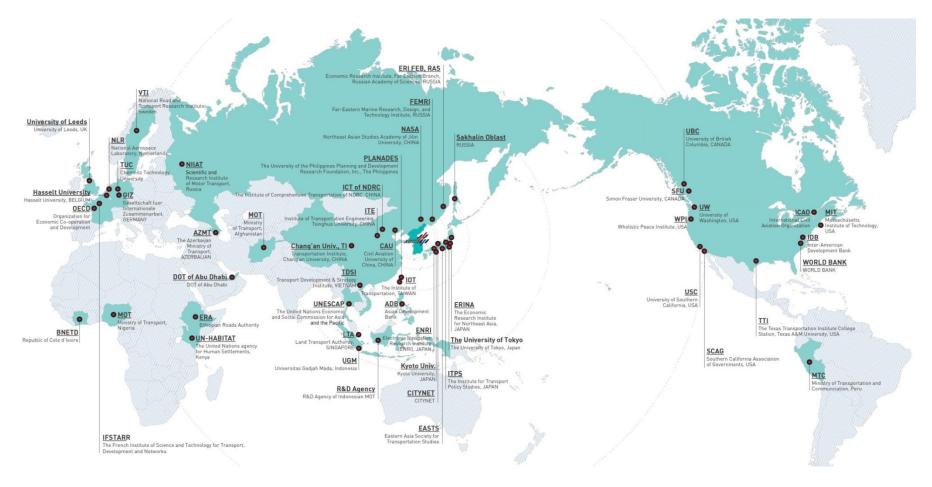

9/16

### MOUS 63 organizations

World Bank, IDB, ADB, ICAO, OECD/ITF, UNESCAP etc.

# Secondment with Int'l Organizations 4 organizations

World Bank, ADB, OECD/ITF, UN ESCAP

10/16

#### Joint Studies and Report Publication

- World Bank: Implementing Sustainable Transport Systems in Developing Countries
- ADB: Smart Transit Cards and Integrated Fare Collection System in South Korea
- MIT Media Lab: Cloud Transport System
- GIZ: Reviving the Soul in Seoul
- OECD/ITF: ITF's Short Cycle Project on Road Safety in Korea
- ITPS: A Comparative Study of Sustainability of Local Transport: Case Study of Korea and Japan

#### International Seminars and Conferences

• KOTI - World Bank

• KOTI - OECD/ITF

KOTI - CITYNET

KOTI - UN ESCAP

• KOTI - ITPS

• KOTI - IDB

KOTI - ADB

• KOTI - ICT

• KOTI - UITP

### Overseas Educational Training

- Educational Training for Philippines National Airport Master Plan
- Educational Training for Master Plan for Mongolia Mineral Resources Development, Construction of Infrastructure and Funding
- KOTI-World Bank Leaders in Urban Transport Planning Program (LUTP Seoul)
- Educational Training for Afghanistan Road Management and Transportation Technology, etc.

#### **C** Formulation of Master Plans

- ► Arterial road network for Indonesia's Sumatra Island
- Arterial road network for Mozambique
- ➤ Nigeria Lagos Metropolitan Transportation
- ► Vietnam Hue Urban Transportation

- ► Russia Khabarovsk International Airport
- ► Philippines Cebu Mactan International Airport
- ► Russia Sakhalin International Airport

► National railway network in Cameroon

► Bike paths and pedestrian walkways in Abu Dhabi

### **© Feasibility Studies**

- Railway Connection Project Involving Five ASEAN Countries
- Construction of the Baku Bay Marine Bridge (Azerbaijan)
- Clark International Airport Development Project (Philippines)
- Study on Railway Electrification Research and Design for Simatra Tamansari Section of Mechi Mahakli Line (Nepal)
- Feasibility Study on Asuncion Short Line Train Construction (Paraguay)

#### ○ National Transport Network Designs

- Investigation of Business Formation (Philippines)
- Challenges, Issues and Improvements in Transportation and Logistics Sector of Mongolia
- Current Transport System of Metro Manila and Future Prospects (Philippines)

#### Knowledge Sharing Program

# Transport Policy Consulting Program

- Consigned projects
- Dispatching professional consulting groups
- Provision of capability enhancement programs based on infrastructure development experience

# **Publication of Transport Policy Leaflets**

Sharing Korea's development experience with the world by publishing leaflets on Korea's exemplary transport policies (KOTI Knowledge Sharing Reports)

# Joint Consulting with International Organizations

Joint development of education and consulting programs with international organizations such as World Bank, ADB and Citynet

# Operation of Global Transport Academy

- Using the KOTI Internet Website to provide various KSP materials
- Establishing a cyber education center for global transport cooperation

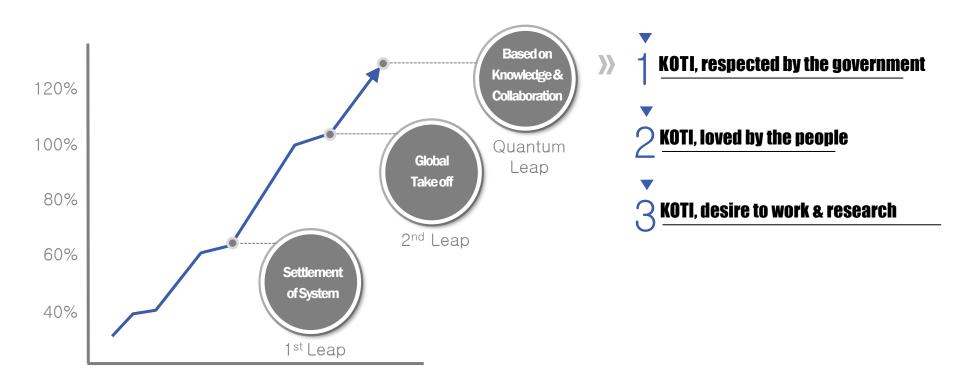

### 08 Quantum Leap in the Sejong Era (Since 2015)

# **KOTI's 3 Management Value** in the Sejong Era

KOTI enriches the future by securing harmony among people, the environment and transport

# **Korea Transport Institute**
